ACCUCEL False ceiling is a premium product of Accura Polytech Pvt. Ltd, made from ACCUCEL Solid PVC foam profiles with integral skin manufactured at a state of the art factory using breakthrough technology from ITALY to suit Indian condition.

ACCUCEL False ceiling is sturdy, elegant, prefinished, durable and long lasting. ACCUCEL False ceiling is provided with structurally strong frame work and sandwich panelled to offer heat and sound insulation. ACCUCEL False ceiling is fabricated from ACCUCEL rigid PVC foam profile FP 10012 main element and FP 7114, FP 5615 & FP 1515 as cornice moulding or edging profile.

ACCUCEL is as elegant as any premium wood in appearance. It is equally workable, can be nailed, screwed, drilled, glued, sawn, tapped or welded just like wood. ACCUCEL comes in a range of different shapes, colors & finishes. ACCUCEL is characterised by excellent screw holding strength (>200 Kgf.) And shore hardness A of more than 70.
